The screenshot shows a Java application running in a code editor. The application displays student details for three students (Students 3, 4, and 5) across various subjects.

Student 3 Details:

- Name: *Micheal Maina*
- English: 46
- Math: 57
- History: 82
- Geography: 72
- Science: 74
- Programming: 63

Student 4 Details:

- Name: *Samuel Kuria*
- English: 66
- Math: 56

- Programming: 87

Student 5 Details:

- Name: *Weston Maina*
- English: 77
- Math: 67
- History: 81
- Geography: 90
- Science: 74

The application uses a simple text-based interface with colored output for names and subject names. The code editor interface includes tabs for 'Main.java' and 'Main', and a status bar at the bottom showing file path, encoding, and character count.

The screenshot shows a terminal window displaying the output of a Java application named 'Main'. The application prompts for student details and prints them out. The output is as follows:

```
